🎯 **FINAL RECOMMENDATIONS:**

1. Retain High-Risk Customers

- Identify **"At Risk" customers** using the model
- Provide:
  - Discounts 💰
  - Special offers 🎁
  - Personalized communication

👉 *Goal:* Reduce churn before customers leave

🟢 **2. Introduce Long-Term Plans**

- Customers with **low tenure churn more**
- Encourage:
  - Annual / yearly subscriptions
  - Loyalty-based contracts

👉 *Benefit:* Increases customer retention

🟢 **3. Optimize Pricing Strategy**

- High **MonthlyCharges → higher churn**
- Actions:
  - Offer budget-friendly plans
  - Provide better value (bundles, offers)

👉 *Goal:* Make pricing more competitive

🟢 **4. Improve Customer Experience**

- Focus on:
  - Service quality
  - Customer support

    - Faster issue resolution

👉 *Reason:* Poor experience leads to churn

🟢 **5. Targeted Marketing Campaigns**

- Use segmentation:
    - At Risk → retention offers
    - Loyal → rewards & upgrades
    - Dormant → re-engagement campaigns

👉 *Benefit:* More effective marketing

🟢 **6. Monitor Key Metrics Regularly**

- Track:
    - Churn rate
    - Customer lifetime value
    - Usage patterns

👉 *Goal:* Early detection of churn trends

🟢 **7. Use Predictive Model in Business**

- Deploy ML model in system
- Automatically flag risky customers

👉 *Result:* Proactive decision-making
